

WE ARE NOT AN EVENT COMPANY. WE ARE AN EXECUTIVE RESEARCH AND PUBLICATION ORGANIZATION.

Six executives. Two partners. One author. That is the entire room. Those conversations become quarterly Executive Intelligence Briefs, and the summit is simply where each quarter's research gets finished.

THE ROOM

6 executives
2 partners
1 author

66%

of the room is tech leadership

1/10

the cost of a typical event company

your first virtual council

WHAT A PARTNER ACTUALLY BUYS

NO BOOTHS · NO BADGE SCANS · NO PITCH SLOTS

Exec to exec. Never sales to exec.

Your senior leader sits at the table as a peer. No pitch slot, no product walkthrough, no AE parked in a seat the room expected a decision maker to fill.

Nine seats. That is the whole room.

Every virtual council is six executives, two partners, one author. Run the math on your share of voice, then compare it to a webinar with 400 registrants.

Councils lead to the live summit.

Virtual rooms run all quarter and roll into the in-person summit where that quarter's briefs are finalized. You are in the story from research to print.

Briefs that carry your message.

Quarterly Executive Intelligence Briefs put the thinking you helped shape in front of our executive members. Editorial credibility, not an ad unit.

CxO room, tech-exec heavy.

C-suite and owner level throughout, and 66% of it is technology leadership: CIO, CTO, CISO, CAIO. The people who actually sign for your category.

One tenth the cost.

Roughly a tenth of what a traditional event company charges. We run narrower, with less overhead, so you are not funding an expo hall.

WE SELL VALUE, NOT PROMISES.

Your first virtual council is on us. Sit in the room, read the brief with your name in it, then decide.
